Terms and conditions

Incentive availability

Incentives are available on a first-come, first-served basis according to the postmark date on the application. The clothes washer recycling incentive is applicable only for retailers whose customers have purchased an ENERGY STAR qualified clothes washer on or after January 1, 2012 and submitted a clothes washer incentive application. Applications need to include all information requested. Failure to provide this information may result in the denial of the incentive.

Participating retailers

Participating retailers in the Home Energy Savings program who sold a qualifying ENERGY STAR clothes washer to residential electric customers residing in the state of California who purchase their electricity from Pacific Power on rate schedules D, DL-6, DS-8, DM-9 or NEM-35 qualify for the clothes washer recycling incentive.

Application details

Pacific Power reserves the right to conduct random inspections to verify information provided on the application. If your application is selected for review, it will not be processed until the review is satisfactorily completed. Incentive qualifications and amounts are subject to change and termination at any time. Pacific Power customers should visit the program website at pacificpower.net/hes.

The customer hereby transfers to Pacific Power all "Environmental Attributes" attributable to the qualifying equipment or its operation. Environmental Attributes include any and all credits, benefits, emissions reductions, offsets and allowances, howsoever entitled, resulting from the avoidance of the emission of any substance to the air, soil or water at or by PacifiCorp generating facilities through reduced generation of energy or other savings or offsets on account of the qualifying equipment. The customer will not claim ownership of any Environmental Attributes. As long as the customer at the same time states the qualifying equipment was made possible with funding from Pacific Power, the customer may claim that it is facilitating the production of the Environmental Attributes attributable to the qualifying equipment.

Pacific Power issues incentives in the form of checks not utility bill credits. Pacific Power is not responsible if your dealer provides inaccurate information about the amount and/or conditions of the actual incentive and Pacific Power will not pay incentives for equipment that is mislabeled or misrepresented by dealers regarding incentive qualifications. Households receiving incentives under the Home Energy Savings program may not receive equipment purchase and installation incentives under other company programs.

Incentive applications must be submitted within 90 days of purchase or installation.
