

2012 Cool Cash Incentive Program Customer Application - Evaporative Cooling

IMPORTANT: Incentives will be offered for a limited time only and applications will be honored on a first-come, first-served basis. Please check online at rockymountainpower.net/coolcash or with your dealer to determine the current status of incentive availability. Please send the completed application along with a copy of the dated sales receipt/invoice to the address listed on the bottom of this application. Applications can also be submitted online. Please review the eligibility requirements stated on the back of this form. Allow 6-8 weeks for incentive processing. Please confirm that all information on this application is correct and complete. Incentives may be delayed for incomplete applications and inspections.

Property Owner Addendum: If you are a property owner not listed on the account and would like the incentive check to be made payable to you, please check the box below and attach a completed Property Owner Addendum. Otherwise all incentive checks will be made payable to the name and mailing address listed on the Rocky Mountain Power account at the installation address. Please visit rockymountainpower.net/coolcash to download and print this form or call 1-800-942-0266.

Customer Information (required for all applicants)

Additional Information

Qualifying Customers

Residential electric customers who reside within the state of Utah and who purchase their electricity from Rocky Mountain Power on rate schedule 1, 2, 3 or 25 are eligible to participate in the 2012 Cool Cash Incentive program.

Qualifying Equipment

Evaporative cooling systems must be listed on Rocky Mountain Power's pre-approved equipment listing in order to qualify for the available incentive. A copy of the qualified equipment listing is available from the program's website at rockymountainpower.net/coolcash or from your local air-conditioning dealer.

Incentive Schedule¹

First-time installation: \$300 <i>Only if additional equipment is listed on invoice</i>
Replacement installation: \$100
Premium evaporative: \$500
Premium whole-house ducted evaporative: \$1,000 <i>after inspection</i>

¹ Customer incentives may not be issued to the Participating Dealer who installed the system.

Application Details

Incentives are available for a limited-time-only and will be honored on a first-come, first-served basis according to the postmark date on the application. Check the program's website at rockymountainpower.net/coolcash or with your dealer to determine the current status of incentive availability. All equipment must be new and must be purchased and installed prior to submitting an incentive application, and must have been purchased and installed after January 1, 2012. Applications must be submitted within 180 days of end of program year. Applications must include all information requested on the front of this form. Failure to complete this information may result in the denial of the incentive.

Rocky Mountain Power reserves the right to conduct random inspections to verify information provided on the application. If Rocky Mountain Power inspects the unit, the incentive application will not be processed until the inspection has been satisfactorily completed. Rocky Mountain Power reserves the right to inspect and/or install temporary air conditioning monitoring equipment on any installation of qualifying equipment at any time up to 36 months after installation for quality control of the application or program performance evaluations. Incentive qualifications and amounts are subject to change and termination at any time. Rocky Mountain Power customers should visit the program's website at rockymountainpower.net/coolcash or contact your local dealer to determine whether program changes have occurred.

The customer agrees to transfer to Rocky Mountain Power all "environmental attributes" attributable to the qualifying equipment or its operation. Environmental attributes include any and all credits, benefits, emissions reductions, offsets and allowances, howsoever entitled, resulting from the avoidance of the emission of any substance to the air, soil or water at or by PacifiCorp generating facilities, through reduced generation of energy or other savings or offsets on account of the qualifying equipment or otherwise. The customer will not claim ownership of any environmental attributes. As long as the customer at the same time states the qualifying equipment was made possible with funding from Rocky Mountain Power, the customer may claim that it is facilitating the production of the environmental attributes attributable to the qualifying equipment.

Rocky Mountain Power issues incentives in the form of checks not utility bill credits. Rocky Mountain Power is not responsible if your dealer provides inaccurate information about the amount and/or conditions of the actual incentive and Rocky Mountain Power will not pay incentives for equipment that is mislabeled or misrepresented by dealers regarding incentive qualifications. Incentives paid to customers are limited to two (2) per qualifying household per qualifying measure. Customers may apply for up to two (2) evaporative equipment incentives for the same measure, and up to two (2) central air conditioning equipment incentives for the same measure where such qualifying equipment is purchased and installed on the same existing residence and meets all other program requirements.

Qualifying equipment receiving incentives under the 2012 Cool Cash Incentive program may not receive equipment purchase and installation incentives under other company programs. In addition, Rocky Mountain Power customers issued incentives in prior years will be counted toward the limit of each qualifying measure at the same existing residence.
