4 Insulation incentive

Qualifications

- Home must have either a) an electric heating system or b) a central air conditioner or heat pump (ducted unitary cooling equipment) serving at least 80 percent of the living space.
- Homes built less than one calendar year prior to the work being performed do not qualify for the incentive. Incentives do not qualify if work is performed as part of building code requirements. Areas that are not finished living spaces, such as a garage or a basement, do not qualify.
- Pre-existing insulation levels must be R-20 or less in attics, R-18 or less in floors and R-10 or less in walls.
- Walls: Must install additional R-11+ or fill cavity. (Interior walls, such as walls between rooms, do not qualify.)
- Must install an additional R-19 or greater in attics (final insulation depth upon project completion must be R-38 or greater) and an additional R-19 or greater in floors.
- Insulation may be installed by the customer or contractor. Self-installers are eligible for incentives on materials only. For self-installed insulation, please provide documentation of R-Values and square footage of insulation installed. This information will be listed on your register receipt or your insulation packaging. Contractor installations require invoice and proof of payment to receive incentives. Work may be inspected.
- Above grade portions of exterior basement walls qualify. Basement floors do not qualify. Main level floors qualify if basement is unheated or nonexistent.
- An itemized receipt/contractor invoice clearly indicating square footage for each area, insulation type and R-Values for insulation installed, itemized costs, and purchase and installation dates and proof of payment in the form of a copy of canceled check, charge receipt, credit card statement or finance agreement showing the full payment must be submitted with your application.

Required documentation (must be attached to application)

- Proof of payment must be third-party proof of payment (an invoice marked 'paid' by a contractor is not sufficient) and account for full amount listed on invoice. Acceptable proof of payment includes: a copy of a bank-cancelled check (front and back, often available through online banking), a printed charge receipt, a finance agreement with your contractor; a credit or bank statement showing the purchase as a line item.
- An itemized receipt/contractor invoice clearly indicating square footage for each area, insulation type and R-Values for insulation installed, itemized costs and purchase and installation dates.

Terms and conditions

Incentive availability

Incentives are available on a first-come, first-served basis according to the postmark date on the application. Please reference the program website at rockymountainpower.net/hes to determine the current status of incentive availability. All equipment must be new and have been purchased and installed prior to submitting an Incentive Application. Applications must include all information requested. Failure to provide any required information may result in the delay or denial of the incentive. If required information is not provided within 90 days of application submittal, the incentive application will be denied. Incentive will not exceed purchase price. Additional terms and conditions may apply. Incentives are subject to tariff approval and may change with 45 days notice. Please visit rockymountainpower.net/hes for current program requirements.

Qualifying customers

Residential electric customers residing in the state of Idaho who purchase their electricity from Rocky Mountain Power on rate schedules 1 or 36 qualify. Landlords who own rental properties served by the company in the state of Idaho where the tenant is billed on rate schedules 1 or 36 also qualify for this program. You can find your rate schedule on your bill, by calling toll free 1-888-221-7070 or by logging in at rockymountainpower.net. Incentive checks will be issued in the name of the customer on the qualifying account. Home must have an electric heating system, central air conditioner, or heat pump serving at least 80 percent of the living space (ducted unitary cooling equipment).

Qualifying equipment and services

Qualifying products and services may be found online at rockymountainpower.net/hes or by calling us toll free at 1-800-942-0266. Home improvement incentives available on existing homes only. Insulation and window incentives do not qualify if work is performed as part of building code requirements.

Application details

Rocky Mountain Power reserves the right to conduct inspections to verify information provided on the application. If your application is selected for review, it will not be processed until the review is satisfactorily completed. Rocky Mountain Power customers should visit the program Web site at rockymountainpower.net/hes for current program requirements.

The customer hereby transfers to Rocky Mountain Power all "Environmental Attributes" attributable to the Qualifying Equipment or its operation. Environmental Attributes include any and all credits, benefits, emissions reductions, offsets and allowances, howsoever entitled, resulting from the avoidance of the emission of any substance to the air, soil or water at or by PacifiCorp generating facilities through reduced generation of energy or other savings or offsets on account of the Qualifying Equipment. The customer will not claim ownership of any Environmental Attributes. As long as the customer at the same time states the Qualifying Equipment was made possible with funding from Rocky Mountain Power, the customer may claim that it is facilitating the production of the Environmental Attributes attributable to the Qualifying Equipment.

Rocky Mountain Power issues incentives in the form of checks not utility bill credits. Rocky Mountain Power is not responsible if your dealer provides inaccurate information about the amount and/or conditions of the actual incentive and Rocky Mountain Power will not pay incentives for equipment that is mislabeled or misrepresented by dealers regarding incentive qualifications. Households receiving incentives under the Home Energy Savings program may not receive equipment purchase and installation incentives under other Rocky Mountain Power programs.

By providing Rocky Mountain Power with your e-mail address you agree that we may send you e-mails, occasional "breaking news" alerts and promotions from Rocky Mountain Power's Home Energy Savings Program. We may also e-mail you occasionally with updates and information about the program. Should we elect to change our privacy policy we will post the changes at rockymountainpower.net/hes. Where the changes are significant, we may also choose to e-mail all our registered users with the new policy details.
