

Before you begin!

**Ensure your eligibility**

Qualifying customers are outlined in the Terms and Conditions on the last page.

**Review all Terms and Conditions**

Terms and Conditions located on last page.

**Purchase qualifying equipment or services**

Visit [rockymountainpower.net/hes](http://rockymountainpower.net/hes) or call 1-800-942-0266 for information regarding equipment or service qualifications.

Keep in mind:

● **Review the Incentive Application**

Review your Incentive Application form with your contractor. They can aid you in finding qualifying equipment or services, required documentation and completing your application.

● **90-day submission deadline**

Completed form and itemized receipt must be received within 90 days of purchase, installation or completed service to meet eligibility criteria.

● **Fill everything out in four easy steps!**

All form fields are required unless noted as optional. Incomplete applications and applications not including required documentation may result in denied or delayed incentives.

● **Application assistance**

Call 1-800-942-0266 for answers to any questions you have about your application or incentive.

● **Make a copy**

After completing your Incentive Application, make and keep a copy for your records.

● **Check delivery**

Incentive checks are issued within 45 days of receipt of your completed and approved Incentive Application.

**Customer Information (all fields are required unless noted as optional)**

Please note that the incentive check will be issued to the primary name on the utility account.

Rocky Mountain Power account number \_\_\_\_\_ - \_\_\_\_\_ For account number call toll free **1-888-221-7070**  
or log in at [rockymountainpower.net](http://rockymountainpower.net).

Name on account \_\_\_\_\_ Daytime phone ( \_\_\_\_\_ ) \_\_\_\_\_

Installation address \_\_\_\_\_ City \_\_\_\_\_ State \_\_\_\_\_ Zip \_\_\_\_\_

Mailing address \_\_\_\_\_ City \_\_\_\_\_ State \_\_\_\_\_ Zip \_\_\_\_\_

E-mail address (optional) \_\_\_\_\_  E-mail is the best way to contact me  
(E-mail policy located in Terms & Conditions)

**Customer acceptance of terms**

I hereby certify that all information is accurate including claims of customer and equipment information. I confirm that the improvements I installed were not required by code. I have read all terms and conditions and acknowledge that Rocky Mountain Power may verify all the information provided. Incentive checks are paid to the Rocky Mountain Power account holder. Customers are responsible for payment to contractors.

Customer signature \_\_\_\_\_ Date \_\_\_\_\_

## 2 Household information *(all fields are required unless noted as optional)*

Data used to calculate energy efficiency

Year house built \_\_\_\_\_ House square footage (living space) \_\_\_\_\_ Square footage cooled (ducted) \_\_\_\_\_

### Previous primary heat source:

- Electric furnace  
 Electric heat pump  
 Natural gas furnace  
 \_\_\_\_\_

### Current primary heat source:

- Electric furnace  
 Electric heat pump  
 Natural gas furnace  
 \_\_\_\_\_

### Previous cooling source:

- Central air conditioner  
 Heat pump  
 \_\_\_\_\_

### Current cooling source:

- Central air conditioner  
 Heat pump  
 \_\_\_\_\_

### What is your gender? (optional)

- Male  Female

### Do you rent or own? (optional)

- Rent  Own

### What is the age of the Rocky Mountain Power account holder? (optional)

- 18 - 25  
 26 - 35  
 36 - 45  
 46 - 55  
 56 and over

### Household income – approx. (optional)

- up to \$24,999  
 \$25,000 - \$34,999  
 \$35,000 - \$49,999  
 \$50,000 - \$74,999  
 \$75,000 - \$99,999  
 \$100,000 +

### How did you hear about the Home Energy Savings program? (optional)

- Online search  
 Friend/referral  
 Retailer sales staff  
 TV/Radio ad  
 Bill stuffer

## 3 Contractor information

Some incentives require a **Program Qualified Contractor**. Visit [rockymountainpower.net/hes](http://rockymountainpower.net/hes) for details.

Contractor/Company name \_\_\_\_\_ Contractor phone (\_\_\_\_) \_\_\_\_\_

Contractor address \_\_\_\_\_ City \_\_\_\_\_ State \_\_\_\_ Zip \_\_\_\_\_

Technician name \_\_\_\_\_ Rocky Mountain Power certification # \_\_\_\_\_

Work completed date \_\_\_\_\_

### Acceptance of terms

I hereby certify that all information is accurate including claims of customer and equipment information. I have read all terms on this application and acknowledge that Rocky Mountain Power may verify all the information provided.

Technician signature \_\_\_\_\_ Date \_\_\_\_\_

## 4 Pick your incentive

### Central air conditioner incentive

Please check the incentive(s) you are applying for:	Additional required documentation	Customer	Contractor
<input type="checkbox"/> Central air conditioner equipment <i>minimum 15 SEER, 12.5 EER &amp; TXV</i>	<input type="checkbox"/> Certificate of AHRI-Certified Performance for central air conditioner	\$250	\$25
<input type="checkbox"/> Central air conditioner best practices installation <i>minimum 13 SEER &amp; TXV</i> <b>Program Qualified Contractor required</b>	<input type="checkbox"/> HESP Central Air Conditioner Best Practices Installation Worksheet (350 CFM/ton minimum air flow required)	\$50	\$75
<input type="checkbox"/> Central air conditioner proper sizing <i>minimum 13 SEER &amp; TXV</i>	<input type="checkbox"/> Manual J load calculation or equivalent. Use information below for sizing assumptions when calculating Manual J.	\$50	\$25

AHRI reference # \_\_\_\_\_ Manufacturer \_\_\_\_\_

Purchase date \_\_\_\_\_ Installation date \_\_\_\_\_

Outdoor (condenser) model # \_\_\_\_\_ Condenser serial # \_\_\_\_\_

Indoor (coil) model # \_\_\_\_\_ SEER \_\_\_\_\_ EER \_\_\_\_\_ Cooling capacity (Btu/h) \_\_\_\_\_

**Central air conditioner incentive, continued**

Furnace model # \_\_\_\_\_

Calculated cooling load (if applicable) (Btu/h) \_\_\_\_\_ Thermal expansion valve (TXV) installed?  Yes

Please use the following summer design conditions when calculating the cooling load.

Sizing assumptions - State of Idaho Minimum Design Indoor Dry Bulb Temperature cooling: 75°F Maximum Design Indoor Dry Bulb Temperature heating: 70°F	Building Age	ACH Envelope	ACH Fireplace
	≤ 2 years	0.2	0.05
	2 < Age ≤ 11	0.4	0.10
	> 11 years	0.5	0.20

**Central air conditioner / Heat pump tune-up incentive**

Please check the incentive you are applying for:	Additional required documentation	Customer	Contractor
<input type="checkbox"/> Central air conditioner tune-up <b>Program Qualified Contractor required</b>	<input type="checkbox"/> Central air conditioner / heat pump tune-up Worksheet (350 CFM/ton/minimum air flow required)	\$100	\$25
<input type="checkbox"/> Heat pump tune-up <b>Program Qualified Contractor required</b>	<input type="checkbox"/> Central air conditioner / heat pump tune-up Worksheet (350 CFM/ton/minimum air flow required)	\$100	\$25

**Heat pump incentive**

Please check the incentive(s) you are applying for:	Additional required documentation	Customer	Contractor
<input type="checkbox"/> Heat pump to heat pump upgrade <i>minimum 8.2 HSPF, 14 SEER, 11.5 EER &amp; TXV</i>	<input type="checkbox"/> Certificate of AHRI-Certified Performance for heat pump	\$250	\$25
<input type="checkbox"/> Electric heat system to heat pump conversion <i>minimum 8.2 HSPF, 14 SEER, 11.5 EER &amp; TXV</i> Eligibility requirements: - Equipment must replace an existing electric heating system (i.e. furnace, baseboards, etc.). - Gas furnace system replacements and first time installations are not eligible.	<input type="checkbox"/> Certificate of AHRI-Certified Performance for heat pump	\$350	\$25

**Equipment information**

AHRI reference # \_\_\_\_\_ Manufacturer \_\_\_\_\_

Purchase date \_\_\_\_\_ Installation date \_\_\_\_\_

Outdoor (condenser) model # \_\_\_\_\_ Condenser serial # \_\_\_\_\_

Indoor (coil) model # \_\_\_\_\_ SEER \_\_\_\_\_ EER \_\_\_\_\_ HSPF \_\_\_\_\_

Furnace model # \_\_\_\_\_ Cooling capacity (Btu/h) \_\_\_\_\_

Calculated cooling load (if applicable) (Btu/h) \_\_\_\_\_ Thermal expansion valve (TXV) installed?  Yes

Please use the following summer design conditions when calculating the cooling load.

Sizing assumptions - State of Idaho Minimum Design Indoor Dry Bulb Temperature cooling: 75°F Maximum Design Indoor Dry Bulb Temperature heating: 70°F	Building age	ACH envelope	ACH fireplace
	≤ 2 years	0.2	0.05
	2 < Age ≤ 11	0.4	0.10
	> 11 years	0.5	0.20

**Duct sealing incentive**

Please check the incentive you are applying for:	Additional required documentation	Customer	Contractor
<input type="checkbox"/> Duct sealing <b>Program Qualified Contractor required</b>	<input type="checkbox"/> Duct sealing worksheet showing a 50% reduction in duct leakage to outside (100 CFM leakage reduction minimum)	\$150	\$50

## Evaporative cooler incentive

Please check the incentive you are applying for:	Additional required documentation	Model number	Serial number	Customer
<input type="checkbox"/> Evaporative cooler	<input type="checkbox"/> Itemized receipt with retailer/contractor name, address and phone number; itemized listing of quantity, description, manufacturer; model number and other identifying information as appropriate, purchase date and price, and product installation date			\$100

## Required documentation

The following documents must be included for every incentive you apply for:

**Proof of payment**

Copy of endorsed and deposited check, charge receipt, canceled check or credit card statement showing full payment.

**Itemized receipt / contractor invoice**

Please note: must include a description of qualified product or service (include all model numbers), itemized costs, and purchase and installation service dates.

Any "**Additional Required Documentation**" for each incentive. This is listed in a separate column in each incentive table.

## How to receive your incentive

Purchase and install Program Qualified equipment or services.

- Verify if your incentive requires a **Program Qualified Contractor**. This will be listed in the incentive tables above, and in the conditions below.

- For questions about what equipment or services qualify, visit [rockymountainpower.net/hes](http://rockymountainpower.net/hes) or call 1-800-942-0266.

Complete all required information on this application. Incomplete forms may be delayed or denied.

Review and sign the acceptance of terms. Make a copy for your records.

Mail completed form with **all required documentation** to:  
**Rocky Mountain Power - Home Energy Savings program**  
**1407 W. North Temple, Salt Lake City, UT 84116**

## Terms and conditions

### Incentive availability

Incentives are available on a first-come, first-served basis according to the postmark date on the application. Please reference the program Web site at [rockymountainpower.net/hes](http://rockymountainpower.net/hes) to determine the current status of incentive availability. All equipment must be new and have been purchased and installed prior to submitting an Incentive Application. Applications must include all information requested. Failure to provide this information may result in the delay or denial of the incentive. All equipment must be purchased and installed or services performed on or after January 1, 2010. Incentive will not exceed purchase price. Additional terms and conditions may apply. Incentives are subject to tariff approval and may change with 45 days of notice. Please visit [rockymountainpower.net/hes](http://rockymountainpower.net/hes) for current program requirements.

### Qualifying customers

Residential electric customers residing in the state of Idaho who purchase their electricity from Rocky Mountain Power on rate schedules 1 or 36 qualify. Landlords who own rental properties served by the company in the state of Idaho where the tenant is billed on rate schedules 1 or 36 also qualify for this program. You can find your rate schedule on your bill, by calling toll free 1-888-221-7070 or by logging in at [rockymountainpower.net](http://rockymountainpower.net). Incentive checks will be issued in the name of the customer on the qualifying account.

### Incentive specific qualifications and conditions:

#### Central air conditioner

**Incentive qualifications:** In order to receive the central air conditioner incentive\*, proper sizing incentive, and/or best practices installation incentive, equipment must be a new, air-source split or packaged unitary air conditioner with an Air Conditioning,

## Terms and conditions, continued

Heating and Refrigeration Institute (AHRI) Standard Rating Cooling Capacity of 65,000 BTU/hr (5.4 tons) or less, and an efficiency rating of combined indoor and outdoor units of 15 SEER and 12.5 EER. For units added to existing air handlers, documentation must be submitted in addition to the AHRI certificate showing air flow of 350 CFM per ton minimum. Contractors must provide documented air flow and testing procedure details. Equipment must contain or have a factory or field installed TXV. Split-system equipment must include a new matched condensing unit and new evaporator/fan coil with an overall Seasonal Energy Efficiency Ratio (SEER) determined by AHRI standard 210/240 and listed in the AHRI Certified Directory of Unitary Equipment. This directory can be found online at [www.ahridirectory.org](http://www.ahridirectory.org). Central air conditioner must be sized within 1/2 ton of the calculated cooling load using Manual J or equivalent. Use the summer design conditions found on page 3 when calculating the cooling load.

**Central air conditioner best practices installation incentive requires a Program Qualified Contractor.**

*\*Requires also that the SEER and EER ratio of installed equipment meet or exceed 15 SEER and 12.5 EER for central air conditioners as determined by AHRI Standard 210/240.*

### Central air conditioner and heat pump tune-ups

**Incentive qualifications:** In order to receive the tune-up incentive, equipment must meet air flow and refrigerant charge requirements. To ensure the greatest savings when conducting tune-up services, the program passing requirement for air flow is 350 CFM/ton. Also, the refrigerant charge must be within +/- 3 degrees of target subcooling for units with thermal expansion valves (TXV). Refrigerant charge for central air conditioners or heat pumps without TXVs must be +/-5 degrees of target super heat. One tune-up incentive paid per unit, for a maximum of two units, per household every five years. Central air conditioner/heat pump tune-up incentive is available on existing equipment only. **Tune-up incentives require a Program Qualified Contractor.**

### Heat pump

**Incentive qualifications:** In order to receive the heat pump incentive\*, equipment must be a new, air-source split or packaged unitary heat pump with an Air Conditioning, Heating and Refrigeration Institute (AHRI) Standard Rating Cooling Capacity of 65,000 BTU/hr (5.4 tons) or less. Equipment must contain or have a factory or field installed TXV. Split-system equipment must include a new matched condensing unit and new evaporator/fan coil with an overall Heating Seasonal Performance Factor (HSPF) determined by AHRI standard 210/240 and listed in the AHRI Certified Directory of Unitary Equipment. This directory can be found online at [www.ahridirectory.org](http://www.ahridirectory.org). The heat pump (ducted unitary cooling equipment) needs to serve 80 percent of the home's floor area.

*\*Requires also that the SEER, EER and HSPF ratio of installed equipment meet or exceed 14 SEER, 11.5 EER and 8.2 HSPF for heat pumps as determined by AHRI Standard 210/240.*

### Duct sealing

**Incentive qualifications:** In order to receive the duct sealing incentive, ducts must be in unconditioned spaces like crawl spaces and attics and duct leakage to outside must be reduced by 50 percent (a minimum of 100 CFM).

Duct sealing incentive is available on existing equipment only and applies to duct systems in existing homes where the ducts are in an unconditioned space. An unconditioned space is any space outside of the thermal envelope of the building that is not intentionally heated for occupancy. The home must have an electric heating system or ducted unitary cooling equipment serving at least 80 percent of the floor area. **Duct sealing incentive requires a Program Qualified Contractor.**

### Evaporative cooler

**Incentive qualifications:** In order to receive the evaporative cooler incentive, equipment must be a new, first-time installation. Unit may be installed by customer or by a contractor. Incentives are limited to one per qualifying household.

### Application details

Rocky Mountain Power reserves the right to conduct random inspections to verify information provided on the application. If your application is selected for review, it will not be processed until the review is satisfactorily completed. Rocky Mountain Power customers should visit the program Web site at [rockymountainpower.net/hes](http://rockymountainpower.net/hes).

The customer hereby transfers to Rocky Mountain Power all "Environmental Attributes" attributable to the Qualifying Equipment or its operation. Environmental Attributes include any and all credits, benefits, emissions reductions, offsets and allowances, howsoever entitled, resulting from the avoidance of the emission of any substance to the air, soil or water at or by PacifiCorp generating facilities through reduced generation of energy or other savings or offsets on account of the Qualifying Equipment.

The customer will not claim ownership of any Environmental Attributes. As long as the customer at the same time states the Qualifying Equipment was made possible with funding from Rocky Mountain Power, the customer may claim that it is facilitating the production of the Environmental Attributes attributable to the Qualifying Equipment.

Rocky Mountain Power issues incentives in the form of checks not utility bill credits. Rocky Mountain Power is not responsible if your dealer provides inaccurate information about the amount and/or conditions of the actual incentive and Rocky Mountain Power will not pay incentives for equipment that is mislabeled or misrepresented by dealers regarding incentive qualifications. Households receiving incentives under the Home Energy Savings program may not receive equipment purchase and installation incentives under other company programs.

The Rocky Mountain Power Home Energy Savings program does not share your e-mail address or contact information. If you chose to provide your e-mail address and indicate that you wish to be contacted via e-mail, you may receive program correspondence electronically.

**Incentive Application must be received within 90 days of equipment installation or completed service.**
