

Let's turn the answers on.

Wyoming HVAC Contractors Rocky Mountain Power Home Energy Savings Program

This list of HVAC participating and program qualified contractors in Rocky Mountain Power's Home Energy Savings program is provided **as a convenience only** to our customers.

ATTENTION CUSTOMERS

Some HVAC measures require a "program qualified contractor" who has completed specialized training.

Participating Contractors have agreed to the Home Energy Savings program terms and conditions for participating by signing a participation agreement. Contractors have also agreed to participate in a quality control process. (Indicated with a "P" in the table below)

Qualified Contractors have been trained to provide installation and service measures to program specifications for central air conditioner installation, duct sealing and central air conditioner tune-ups. Qualified contractors have agreed to the Home Energy Savings program terms and conditions for participating by signing a participation agreement. Contractors have also agreed to participate in a quality control process. (Indicated with a "Q" in the table below)

Please visit homeenergysavings.net/Wyoming/heatingandcooling.html to review the qualifications for each measure to determine whether or not a "program qualified contractor" is required. Incentives are available for a limited time only.
