

Home Energy Savings program Detailed Summary of 2012 Utah Incentive Changes

Important! Rocky Mountain Power's planned changes to the incentives and equipment qualifications associated with our energy efficiency program will become effective November 14, 2012. Listed below are the qualifications and incentive amounts before and after November 14, 2012. Please check our [website](#) for updated Incentive Applications, available on November 14, 2012.

Appliances & Lighting

Incentive	For purchases on or before November 13, 2012	For purchases on or after November 14, 2012
Clothes Washer Tier 1	\$50 Modified Energy Factor (MEF) 2.0-2.45 and Water Factor (WF) 6.0 and below Customer must have electric water heat	\$35 CEE Tier 2 MEF 2.2+ and WF ≤ 4.5
Clothes Washer Tier 2	\$75 MEF 2.46+ Customer must have electric water heat	\$50 CEE Tier 2 + 18% MEF 2.6+ and WF ≤ 3.7
Clothes Washer Recycling	\$25 retailer, N/A customer Replacement unit must be qualified for the HES program	\$25 retailer, N/A customer Replacement unit must be qualified for the HES program
Dishwasher	\$20 Energy Factor (EF) 0.72+ Customer must have electric water heat	\$20 CEE Tier 1 EF 0.75+ Compact models do not qualify
Refrigerator	\$20 ENERGY STAR qualified	\$40 CEE Tier 3 30% above federal minimum standard
Electric Water Heater	\$50 40+ gallon tank - EF .93+ 50 – 65 gallon tank ≥ .91 EF ≥ 66 gallon tank ≥ .89 EF	\$50 40 – 49 gallon tank ≥ 0.94EF 50 – 65 gallon tank ≥ 0.95 EF ≥ 66 gallon tank ≥ 0.93 EF
Room Air Conditioner	\$30 ENERGY STAR qualified	\$30 ENERGY STAR qualified
Light Fixture (CFL & LED)	\$20 ENERGY STAR qualified Torchiere and portable do not qualify	\$20 ENERGY STAR qualified Torchiere and portable do not qualify
Evaporative Cooler - portable	Incentive not offered for purchases on or before November 13, 2012	\$50 Minimum 2,000 cubic feet per minute (CFM)
Freezer	Incentive not offered for purchases on or before November 13, 2012	\$20 20% more efficient than federal standard
Ceiling Fan	\$20 ENERGY STAR qualified	Incentive not offered for units purchased on or after November 14, 2012
LED Bulbs	Incentive not offered for purchases on or before November 13, 2012	Specially priced LEDs available at participating retailers
CFL Bulbs	Specially priced CFLs available at participating retailers	Specially priced CFLs available at participating retailers

Weatherization¹

Incentive	For work completed on or before November 13, 2012	For work completed on or after November 14, 2012
Attic Insulation Electrically Heated	Minimum installation of: Option 1 - \$0.30/square foot for R-19 Option 2 - \$0.40/ square foot for R-30 Pre-existing R-20 or less Final insulation level R-38 or greater Trade ally or self-install	\$0.65/square foot Pre-existing R-20 or less Final insulation level R-38 or greater Qualified weatherization trade ally required
Attic Insulation Electrically Cooled	Minimum installation of: Option 1 - \$0.08/square foot for R-19 Option 2 - \$0.15/ square foot for R-30 Pre-existing R-20 or less Final insulation level R-38 or greater Trade ally or self-install	\$0.15/square foot Pre-existing R-20 or less Final insulation level R-38 or greater Qualified weatherization trade ally required
Self-Installed Attic Insulation Electrically Heated	See requirements above	\$0.40/square foot Pre-existing R-20 or less Final insulation level R-38 or greater
Self-Installed Attic Insulation Electrically Cooled	See requirements above	\$0.15/square foot Pre-existing R-20 or less Final insulation level R-38 or greater
Wall Insulation Electrically Heated	\$0.45/square foot Pre-existing R-10 or less Add minimum R-11 or fill cavity Trade ally or self-install	\$0.65/square foot Pre-existing R-10 or less Final insulation level R-13 or fully fill cavity Qualified weatherization trade ally required
Wall Insulation Electrically Cooled	\$0.30/square foot Pre-existing R-10 or less Add minimum R-11 or fill cavity Trade ally or self-install	\$0.30/square foot Pre-existing R-10 or less Final insulation level R-13 or fully fill cavity Qualified weatherization trade ally required
Self-Installed Wall Insulation Electrically Heated	See requirements above	\$0.45/square foot Pre-existing R-10 or less Final insulation level R-13 or fully fill cavity
Self-Installed Wall Insulation Electrically Cooled	See requirements above	\$0.20/square foot Pre-existing R-10 or less Final insulation level R-13 or fully fill cavity

¹ All work, except for self-installations, must be performed by qualified weatherization or participating windows program trade allies according to all program requirements as outlined in the Utah Qualified Weatherization or Participating Windows Trade Ally Manual.

Weatherization (continued)²

Incentive	For work completed on or before November 13, 2012	For work completed on or after November 14, 2012
Floor Insulation Electric Heated Only	\$0.25/square foot Pre-existing R-18 or less Minimum installation R-19 or greater Trade ally or self-install	\$0.65/square foot Pre-existing R-18 or less Final insulation level R-30 or greater Qualified weatherization trade ally required
Self-Installed Floor Insulation Electric Heated Only	See requirements above	\$0.25/square foot Pre-existing R-18 or less Final insulation level R-30 or greater
Windows Tier 1 Electric Cooling Only	\$0.50/square foot U-Factor of 0.30 or less and SHGC of 0.30 or less	\$0.50/square foot U-Factor of 0.30 or lower Participating windows trade ally or qualified weatherization trade ally required See below for additional window incentives
Windows Tier 2 Electric Heated <u>and</u> Electric Cooling	Incentive not offered for work completed on or before November 13	\$2.00/square foot U-Factor of 0.22 or lower Participating windows trade ally or qualified weatherization trade ally required
Windows Tier 2 Electric Cooling Only	Incentive not offered for work completed on or before November 13	\$1.00/square foot U-Factor of 0.22 or lower Participating windows trade ally or qualified weatherization trade ally required
Bonus Insulation	\$200 customer Additional incentive paid if two qualified areas in same residence are insulated according to program requirements at the same time	\$300 customer Qualified weatherization trade ally required Electrically heated homes only Two qualifying areas (attic & wall, attic & floor or wall & floor) must independently qualify for an individual incentive Only applies to single family homes

² All work, except for self-installations, must be performed by qualified weatherization or participating windows program trade allies according to all program requirements as outlined in the Utah Qualified Weatherization or Participating Windows Trade Ally Manual.

HVAC^{3, 4}

Incentive	For work completed on or before November 13, 2012	For work completed on or after November 14, 2012
CAC Equipment	\$150 customer, N/A trade ally 15+ SEER, 12.5+ EER & TXV Participating dealer	\$150 customer, N/A trade ally 15+ SEER, 12.5+ EER & TXV Participating or qualified HVAC trade ally required
CAC Best Practices Installation	\$50 customer, \$75 trade ally Properly installed CAC & TXV Participating dealer with NATE certification	\$50 customer, \$75 trade ally Qualified HVAC program trade ally required
CAC Proper Sizing	\$50 customer, \$25 trade ally Properly sized CAC & TXV Participating dealer	\$50 customer, \$25 trade ally Participating or qualified HVAC trade ally required
Evaporative Cooler-First Time Install	\$300 customer, \$25 trade ally Must be permanently installed See list of qualified products	\$300 customer, \$25 trade ally Participating or qualified HVAC trade ally required Must be permanently installed Equipment qualifications remain the same. See list of qualified products
Evaporative Cooler-Replacement	\$100 customer, \$25 trade ally Must be permanently installed See list of qualified products	\$100 customer, \$25 trade ally Participating or qualified HVAC trade ally required Must be permanently installed and must replace an existing permanent evaporative cooler Equipment qualifications remain the same. See list of qualified products
Evaporative Cooler-Premium	\$500 customer, \$150 trade ally Must be permanently installed See list of qualified products	\$500 customer, \$150 trade ally Participating or qualified HVAC trade ally required Must be permanently installed Equipment qualifications remain the same. See list of qualified products
Evaporative Cooler-Whole House Ducted	\$1,000 customer, \$300 trade ally Must be permanently installed Must be ducted to whole-house distribution system See list of qualified products	\$1,000 customer, \$300 trade ally Participating or qualified HVAC trade ally required Must be permanently installed Must be ducted to whole house Equipment qualifications remain the same. See list of qualified products

³ The incentives offered under the "Cool Cash" program are now being transferred to the Home Energy Savings program and the same cash incentive amounts will continue to be offered.

⁴ All work must be performed by participating or qualified HVAC program trade allies according to all program requirements as outlined in the Utah HVAC Trade Ally Program Manual.

HVAC (Continued)⁵

Incentive	For work completed on or before November 13, 2012	For work completed on or after November 14, 2012
95% AFUE Gas Furnace with ECM	Incentive not offered for work completed on or before November 13	\$200 customer, \$50 trade ally 95% AFUE furnace with an electronically commutated motor (ECM)
CAC Tune-Up	\$20 customer, N/A trade ally Air flow test and performance check required Qualified program trade ally required	No change
Heat Pump Tune-Up	\$75 customer, \$25 trade ally Air flow test and performance check required Qualified program trade ally required	\$100 customer, \$25 trade ally Air flow test and performance check required Qualified program trade ally required
Heat Pump Water Heater	Incentive not offered for work completed on or before November 13	\$300 customer, \$100 trade ally ENERGY STAR qualified Installations must meet program requirements
Duct Sealing Electric Heat	Incentive not offered for work completed on or before November 13	\$200 customer, \$50 trade ally Electric heated homes only Pre-existing insulation R-2 or greater Minimum of 10 linear feet of exposed ductwork in an unconditioned space Requires CAZ testing Ducts must be sealed according to program requirements
Duct Sealing & Duct Insulation-Electric Heat	\$300 customer, \$50 trade ally Qualified trade ally required Pre-existing insulation R-2 or less Final insulation R-6 or greater Requires CAZ testing Duct sealing must reduce duct leakage to outside by 50 percent with a 100 CFM minimum reduction Duct sealing and duct insulation worksheet Minimum 10' of ducts in unconditioned space All physically accessible duct work sealed and insulated See HVAC trade ally manual for details	\$300 customer, \$50 trade ally Minimum of 10 linear feet of exposed ductwork in an unconditioned space CAZ testing is required All physically accessible ducts must be sealed and insulated according to program requirements Pre-existing duct insulation levels must be less than or equal to R-2 Duct work must be insulated to R-8 or greater

⁵ All work must be performed by participating or qualified HVAC program trade allies according to all program requirements as outlined in the Utah HVAC Trade Ally Program Manual.

HVAC (Continued)⁶

Incentive	For work completed on or before November 13, 2012	For work completed on or after November 14, 2012
<p>Duct Sealing & Duct Insulation Electric Cooling</p>	<p>\$150 customer, \$50 trade ally Qualified trade ally required Pre-existing insulation R-2 or less Final insulation R-6 or greater Requires CAZ testing Duct sealing must reduce duct leakage to outside by 50 percent with a 100 CFM minimum reduction Duct sealing and duct insulation worksheet Minimum 10' of ducts in unconditioned space All physically accessible duct work sealed and insulated See HVAC trade ally manual for details</p>	<p>\$150 customer, \$50 trade ally Minimum of 10 linear feet of exposed ductwork in an unconditioned space CAZ testing is required All physically accessible ducts must be sealed and insulated according to program requirements Pre-existing duct insulation levels must be less than or equal to R-2 Duct work must be insulated to R-8 or greater</p>
<p>HVAC/ Weatherization Super Bundle <i>Bonus incentive for weatherization and HVAC improvements installed at same time</i></p>	<p>Incentive not offered for work completed on or before November 13</p>	<p>\$200 customer (\$1,200 cap on total combined incentives) Super bundle must include 95% gas furnace with ECM, central air conditioner with best practices installation and proper sizing, attic insulation, duct sealing and duct insulation All requirements for individual incentives must be met Available in single family homes only</p>

⁶ All work must be performed by participating or qualified HVAC program trade allies according to all program requirements as outlined in the Utah HVAC and Qualified Weatherization Trade Ally Program Manuals.
