

Let's turn the answers on.

Important! Rocky Mountain Power has [proposed changes \(PDF\)](#) to the incentives and equipment qualifications associated with the program. The request has been submitted to the [Wyoming Public Service Commission](#) for approval. Please check back prior to purchasing or installing products or services for the effective date of our request.

Please check back for the Incentive Application and Qualified Products List. Below are the proposed changes for dishwashers.

Dishwashers

\$20 customer incentive

- Dishwasher must meet the Consortium for Energy Efficiency (CEE) Tier 2 requirements and use a maximum of 295 kwh per year and a maximum of 4.25 gallons per cycle
- Dishwasher must have an Energy Factor, or EF, of 0.75 and above

To determine the [EF](#), visit [ENERGYSTAR.gov](#). Incentives are subject to tariff approval and may change with 45 days notice. Additional terms and conditions may apply.
