Terms & Conditions and Acceptance of Terms

Rocky Mountain Power offers incentives through a variety of programs that focus on energy efficient products. When you (the "Customer") participate in these programs, you can save energy and money while reducing your impact on the environment. This application ("Incentive Application") is intended to guide you through the steps necessary to receive an Incentive ("Incentive") under the Home Energy wattsmart Homes program ("Program"). The program is administrated by CLEAResult Consulting, Inc., a Texas corporation and/or an affiliate thereof ("CLEAResult").

Incentive availability: Incentives are available on a first-come, first-served basis according to the postmark date on the application. Please reference the program website at rockymountainpower.net/hes to determine the current status of incentive availability. All equipment must be new and have been purchased prior to submitting an Incentive Application. Applications must include all information requested. Failure to provide this information may result in delays. If required information is not provided within 42 days of the date listed on the top of the missing information letter, the Incentive Application will be denied. Incentive will not exceed purchase price. Incentives are subject to tariff approval and may change with 45 days of notice. Please visit rockymountainpower.net/hes for current program requirements.

Qualifying customers: Residential electric customers residing in the state of Utah who purchase their electricity from Rocky Mountain Power on rate schedules 1, 2, or 3 qualify. Landlords who own rental properties served by the company in the state of Utah where the tenant is billed on rate schedules 1, 2, or 3 also qualify for this program. You can find your rate schedule on your bill, by calling toll free 1-888-221-7070 or by logging in at rockymountainpower.net. If you are a property owner, landlord, property management company or homeowner association and not listed on the account where qualified equipment was installed or services performed you must submit a completed third party payment addendum to receive incentive check(s) made payable to you.

Qualifying equipment: Qualifying products and services may be found online at rockymountainpower.net/hes or by calling us toll free at 1-800-942-0266.

Jury waiver: To the fullest extent permitted by law, each of the parties hereto waives any right it may have to a trial by jury in respect of litigation directly or indirectly arising out of, under or in connection with this agreement. Each party further waives any right to consolidate any action in which jury trial has been waived with any other action in which a jury trial cannot be or has not been waived.

Application details: Rocky Mountain Power reserves the right to conduct random inspections to verify information provided on the application. If your application is selected for review, it will not be processed until the review is satisfactorily completed. Incentive qualifications and amounts are subject to change and termination with 45 days' notice. Rocky Mountain Power customers should visit the program website at rockymountainpower.net/hes. The customer hereby transfers to Rocky Mountain Power all environmental attributes ("Environmental Attributes") attributable to program qualifying equipment or its operation. Environmental Attributes include any and all credits, benefits, emissions reductions, offsets and allowances, howsoever entitled, resulting from the avoidance of the emission of any substance to the air, soil or water at or by PacifiCorp generating facilities through reduced generation of energy or other savings or offsets on account of the qualifying equipment. The customer will not claim ownership of any Environmental Attributes. As long as the customer at the same time states the qualifying equipment was made possible with funding from Rocky Mountain Power, the customer may claim that it is facilitating the production of the Environmental Attributes attributable to the qualifying equipment. Rocky Mountain Power issues incentives in the form of checks not utility bill credits. Rocky Mountain Power is not responsible if your dealer provides inaccurate information about the amount and/or conditions of the actual incentive and Rocky Mountain Power will not pay incentives for equipment that is mislabeled or misrepresented by dealers regarding incentive qualifications. Households receiving incentives under the wattsmart Homes program may not receive equipment purchase and installation incentives under other Rocky Mountain Power programs.

By providing Rocky Mountain Power with your email address you agree that we may send you emails, occasional "breaking news" alerts and promotions from Rocky Mountain Power's wattsmart Homes program. We may also email you occasionally with updates and information about the program. Should we elect to change our privacy policy we will post the changes at rockymountainpower.net/hes. Where the changes are significant, we may also choose to email all our registered users with the new policy details. Incentive applications and all required information and documentation must be postmarked within 180 days of purchase. Failure to include complete materials may result in denied or delayed incentives. Your incentive check will be issued within 45 days upon receipt of your completed and approved incentive application. Additional terms and conditions may apply.

Acceptance of terms: I hereby certify that all information is accurate including claims of customer and equipment information. I understand that the status of my application may be shared with third parties on an aggregated basis. Incentive checks are paid to the Rocky Mountain Power account holder or verified third party payee. I have read and agree to all terms and conditions on this application and acknowledge that Rocky Mountain Power may verify all the information provided. I authorize Rocky Mountain Power to share my information with Questar Gas for the purposes of energy efficiency program administration and project quality assurance purposes.
