

Duct Sealing & Duct Insulation Incentives

Utah Residents For work completed on or after October 24, 2014

Duct Sealing & Duct Insulation Incentives

Your trade ally or store associate can help you find eligible products

Home's Primary Systems		Duct Sealing		Duct Sealing + Duct Insulation	
Heating	Cooling	Customer Incentive	Trade Ally Incentive	Customer Incentive	Trade Ally Incentive
Electric	Electric or Non-electric	\$300	\$100	\$600	\$200
Non-electric	Electric	N/A	N/A	\$100	\$20

Instructions

Steps and requirements to earn each incentive

Duct Sealing

 Duct Sealing +
Duct Insulation

1. Ensure the home qualifies

- Must be an existing home, not new construction.
- Must have a minimum of 10 linear feet of exposed ductwork located in unconditioned space
- An electric heating system must serve at least 80% of the home's conditioned living space.
- Electric heat is defined as a permanently installed, ducted system consisting of an electric furnace or heat pump serving as the home's current primary heat source
- Non-electric heat is defined as a heating system with gas, oil or propane serving as the home's current primary heat source
- An electric heating or electric cooling system must serve at least 80% of the home's conditioned living space
- Electric cooling is defined as a permanently installed, ducted electric central air conditioner or heat pump serving as the home's current primary cooling source. Room air conditioners and evaporative coolers do not qualify
- Pre-existing duct insulation levels may not exceed R-2

✓

✓

✓

✓

2. Hire a program-eligible trade ally

- The trade ally must be on the HVAC Trade Ally List available at rockymountainpower.net/ut-tradeallies
- When applying for Duct Sealing + Duct Insulation, separate trade allies may perform the two services. The duct sealing trade ally listed in section 2 will receive the trade ally incentive

✓

✓

✓

3. Install sealing and insulation properly

- All services must be provided in accordance with the specifications in the Utah HVAC Trade Ally Manual available at rockymountainpower.net/ut-hvac-manual
- All physically accessible ducts located in unconditioned space must be sealed
- Duct sealing must reduce duct leakage to outside by 50% or more with a 100 CFM minimum reduction
- All physically accessible ducts located in unconditioned living space must be insulated
- Services must result in final duct insulation of R-8 or greater
- Duct sealing and duct insulation must be performed in the same project, with insulation installed after the ducts are sealed

SECTION 1 - Homeowner completes and submits with section 2**Incentive Selection**

I am applying for this incentive:

Home's Primary Systems		Duct Sealing	Duct Sealing + Duct Insulation
Heating	Cooling		
Electric	Electric or Non-Electric	<input type="checkbox"/>	<input type="checkbox"/>
Non-Electric	Electric	N/A	<input type="checkbox"/>

Homeowner and Property Information

Utility account number								-				
Name on utility account												
Address where product was installed						City			State		Zip Code	
Address where incentive check should be mailed						City			State		Zip Code	
Daytime phone for questions about your application						Email address for questions about your application						
Square footage of home						Year home built						
Home type: <input type="checkbox"/> Single family home <input type="checkbox"/> Manufactured home <input type="checkbox"/> Weatherization assistance program												
Home's primary cooling source (select one)												
<input type="checkbox"/> Central air conditioner			<input type="checkbox"/> Evaporative cooler			<input type="checkbox"/> Electric ducted heat pump			<input type="checkbox"/> Ductless heat pump		<input type="checkbox"/> None	

Homeowner and Property Information continued

Does home's primary cooling source serve at least 80% of the home's conditioned living space? Yes No

Home's primary heating source (select one)

- Electric baseboard Electric ceiling or wall heat Electric furnace Natural gas furnace
 Ductless heat pump Electric ducted heat pump Other

Does home's primary heating source serve at least 80% of the home's conditioned living space? Yes No

(Optional) I decline to receive additional energy efficient product incentive information.

How did you hear about cash incentives for energy-efficient products and services for your home? (select all that apply)

- Friend/family Utility website Print ad TV/radio ad
 Trade ally/store staff Other

Homeowner's Acceptance of Terms

I hereby certify that all information is accurate including claims of customer and equipment information. I confirm that the improvements I installed were not required by code. I understand that information related to the completeness of my application may be shared with contractors. I also understand that the status of my application may be shared with third parties on an aggregated basis. I have read all terms and conditions and acknowledge that Rocky Mountain Power may verify all the information provided. Incentive checks are paid to the Rocky Mountain Power account holder. Customers are responsible for payment to contractors.

Terms & Conditions

Rocky Mountain Power offers incentives through a variety of programs that focus on energy efficient products. When you (the “Customer”) participate in these programs, you can save energy and money while reducing your impact on the environment. This application (“Incentive Application”) is intended to guide you through the steps necessary to receive an Incentive (“Incentive”) under the Home Energy Savings program (“Program”). The program is administrated by CLEAResult Consulting, Inc., a Texas corporation and/or an affiliate thereof (“CLEAResult”). The program may require engaging a qualified trade ally (“Trade Ally”) in order to qualify for Incentives. Customer is responsible for paying for all trade ally services.

Incentive availability: Incentives are available on a first-come, first-served basis according to the postmark date on the application. Please reference the program website at rockymountainpower.net/hes to determine the current status of incentive availability. All services must be purchased and installed prior to submitting an Incentive Application. Applications must include all information requested. Failure to provide this information may result in delays. If required information is not provided within 42 days of application submittal, the Incentive Application will be denied. Incentive will not exceed purchase price. Additional terms and conditions may apply. Incentives are subject to tariff approval and may change with 45 days of notice. Please visit rockymountainpower.net/hes for current program requirements.

Qualifying customers: Residential electric customers residing in the state of Utah who purchase their electricity from Rocky Mountain Power on rate schedules 1, 2, or 3 qualify. Landlords who own rental properties served by the company in the state of Utah where the tenant is billed on rate schedules 1, 2, or 3 also qualify for this program. You can find your rate schedule on your bill, by calling toll free 1-888-221-7070 or by logging in at rockymountainpower.net. Incentive checks will be issued in the name of the customer on the qualifying account. If you are a property owner, landlord, property management company or homeowner association and not listed on the account where qualified equipment was installed or services performed you must submit a completed Third Party Payment Addendum to receive incentive check(s) made payable to you.

Customer responsibilities: Customer agrees to indemnify and release CLEAResult, Rocky Mountain Power, their affiliates, officers and employees from all claims, demands, losses, damages, costs, expenses and liability (legal, contractual or otherwise), which arise from or are in any way connected with any: (1) injury to or death of persons, (2) injury to property of Customer, (3) violation of any applicable laws, statutes or ordinances, or (4) any act omission or negligence of the trade ally.

Customer will allow, if requested, a representative from CLEAResult, Rocky Mountain Power, or any authorized third party reasonable access to Customer's property for inspections, including but not limited to: (a) post-installation equipment inspection to check implemented measures and to verify compliance with the program requirements; and (b) post-operation inspection to verify energy savings of the measures after a period of operation; and (c) inspection for any other reason.

Customer also consents to CLEAResult's use of Customer's name, program services, and resulting energy savings in reports or other documentation. Customer will obtain the approval of the property owner where the measure is to be installed prior to installation if Customer is not the owner. Customer agrees that information collected in this application may be used for marketing purposes. In addition, Customer acknowledges that information included in this application may be subject to public records requests as required by law. Customer and CLEAResult shall comply with all applicable laws at all times. It is Customer's responsibility to obtain all licenses, permits or other approvals required for installation of products or measures under the program. Customer is solely responsible for proper disposal of any and all removed products.

Customer is solely responsible for the economic and technical feasibility, operational capability and reliability of Customer's installations, products and solutions. CLEAResult and Rocky Mountain Power make no representation or warranty and assume no liability with respect to services of any trade ally, quality, safety, performance or other aspect of any design, system or appliance installed pursuant to the program or this Incentive Application and expressly disclaim any such representation, warranty or liability. Under no circumstances shall CLEAResult or Rocky Mountain Power be liable for any monetary damages related to the program including any action or inaction of trade ally's performing work under the program. All projected savings are intended to be estimates and CLEAResult and Rocky Mountain Power do not guarantee any level of savings. The customer hereby transfers to Rocky Mountain Power all environmental attributes (“Environmental Attributes”) attributable to program qualifying equipment or its operation. Environmental Attributes include any and all credits, benefits, emissions reductions, offsets and allowances, howsoever entitled, resulting from the avoidance of the emission of any substance to the air, soil or water at or by PacifiCorp generating facilities through reduced generation of energy or other savings or offsets on account of the qualifying equipment. The customer will not claim ownership of any Environmental Attributes. As long as the customer at the same time states the qualifying equipment was made possible with funding from Rocky Mountain Power, the customer may claim that it is facilitating the production of the Environmental Attributes attributable to the qualifying equipment.

Jury waiver: To the fullest extent permitted by law, each of the parties hereto waives any right it may have to a trial by jury in respect of litigation directly or indirectly arising out of, under or in connection with this agreement. Each party further waives any right to consolidate any action in which a jury trial has been waived with any other action in which a jury trial cannot be or has not been waived.

Application timeline: Incentive Application and required documents must be postmarked within 180 days of the service completion date. Incentive checks are issued within 45 days of receipt of the completed and approved Incentive Application. Incentives are not to exceed the purchase price of the equipment or service. Equipment and service work may be inspected for compliance. Incentives are subject to tariff approval and may change with 45 days' notice. Additional terms and conditions may apply.

Application details: If your application is selected for inspection, it will not be processed until the review is satisfactorily completed.

Rocky Mountain Power issues incentives in the form of checks not utility bill credits. Rocky Mountain Power is not responsible if your trade ally provides inaccurate information about the amount and/or conditions of the actual incentive and Rocky Mountain Power will not pay incentives for equipment that is mislabeled or misrepresented by trade allies regarding incentive qualifications. Households receiving incentives under the Home Energy Savings program may not receive equipment purchase and installation incentives under other Rocky Mountain Power company programs.

By providing Rocky Mountain Power with your e-mail address you agree that we may send you e-mails, occasional “breaking news” alerts and promotions from Rocky Mountain Power's Home Energy Savings program. We may also e-mail you occasionally with updates and information about the program. Should we elect to change our privacy policy we will post the changes at rockymountainpower.net/hes. Where the changes are significant, we may also choose to e-mail all our registered users with the new policy details.

Incentive Application must be postmarked within 180 days of the service completion date.
